

FROST THAWING MAT 1000W

The light and efficient frost thawing mat is made of durable PVC fabric and effective cellular rubber insulation. The mat withstands heavy wear and provides powerful frost thawing. The long-lasting heating mat is equipped with overtemperature protection and a thermostat, making it safe and easy to use. The mat is equipped with a 2 m fixed connection cable with a plug. Lockable lashing straps hold the carpet firmly on a roll during transport and storage. Sail rings at the edges of the rug make it easier to secure the rug in place. Excellent for heating/thawing use for example:

- soil and sand
- masonry work
- protection and hardening of concrete castings
- water and sewer pipes
- cable reels
- burial sites
- implements and oil tanks
- hay and fodder bales

SKU: 803010001

TECHNICAL ATTRIBUTES

Power	1000 W	Weight	9,8 kg
Voltage	230V	Connection cable	3 m H07RN-F 3×1,5mm ² (schuko)
Measurements	3,2 x 1,2m	IP-rating	IP67 (IP44)
Lämmitettävä alue	1,01 x 2,97 m	EAN koodi	6430054511384
		Tullikoodi	85168000
