

GAARDBOX PADLOCK PAIR ABLOY PL350

Abloy PL350 steel padlock pair suitable for locking the GAARDBOX safety chest. The pair of padlocks contains 2 Abloy keys, which are already serialized in each padlock. The SVK class 4 lock has a chromed and surface-hardened 14 mm thick boron steel bracket. The key can only be removed in the locked position. Other padlocks can also be used to lock the safety chest.
