

EH3 ELECTRIC HEATER AND DRYING FAN 2.8 KW, 230 V

The EH3 electric heater 230 V is a compact heater and drying fan for construction sites and renovation projects. Two power settings (2.1 / 2.8 kW), an 800 m³/h airflow and a built-in kWh meter for tracking energy consumption.

- Heating output 2.1 / 2.8 kW, voltage 230 V
- Efficient 800 m³/h airflow, blows in four directions
- Built-in kWh meter
- Stepless thermostat 5–45 °C
- Automatic overheating protection
- Enclosure rating IP44
- Compact and easy to move

SKU: 802010011-en

TECHNICAL ATTRIBUTES

Model	EH3	Enclosure rating	IP44
Voltage	230 V / 1-phase	Energy consumption measurement	built-in kWh meter
Heating output	2.1 / 2.8 kW	Overheating protection	Yes
Airflow	800 m ³ /h	Air outlets	4 pcs, blowing in four directions
Fuse	10 A (2.1 kW) / 16 A (2.8 kW)	Weight	8.8 kg
Thermostat	stepless 5–45 °C	Dimensions (H x W x D)	47 x 29 x 26.5 cm

ADDITIONAL PRODUCT DESCRIPTION

The EH3 electric heater 230 V is a compact and efficient heater for construction sites, renovation projects and other spaces that need temporary heating or drying. The efficient 800 m³/h airflow circulates air effectively, and

the built-in kWh meter makes it easy to track the unit's energy consumption. The EH3 is suitable for heating, construction drying and air circulation alike.
