

The light and efficient frost thawing mat is made of durable PVC fabric and effective cellular rubber insulation. The mat withstands heavy wear and provides powerful frost thawing. The long-lasting heating mat is equipped with overtemperature protection and a thermostat, making it safe and easy to use. The mat is equipped with a 2 m fixed connection cable with a plug. Lockable lashing straps hold the carpet firmly on a roll during transport and storage. Sail rings at the edges of the rug make it easier to secure the rug in place.

Excellent for heating/thawing use for example:
soil and sand
masonry work
protection and hardening of concrete castings
water and sewer pipes
cable reels
burial sites
implements and oil tanks
hay and fodder bales

TEKNISET TIEDOT

Tuotekoodi	803010001	**Weight**	9,8 kg
Power	1000 W	**Connection cable**	3 m H07RN-F 3 x 1,5 mm² (Schuko)
Voltage	230V	**Enclosure class**	IP67 (IP44)
Measurements	3,2 x 1,2m	**EAN code**	6430054511384
Area to be heated	1,01 x 2,97 m	**CN code**	85168000
