HOT WATER BOILER TSR-HWB 9 – SITE FLOOR HEATING EXCHANGER, 250 M²

Tuotekortti · 801030011

Hot water boiler TSR-HWB 9 is a compact electric floor heating exchanger for temporary heating of a concrete slab. One unit heats up to 250 m² of floor area, and the flow temperature is adjusted steplessly between 0 and 50 °C.

PÄÄOMINAISUUDET

- Rated output 9 kW, adjustment range 500–9000 W
- Voltage 400 V
- Temperature control 0–50 °C
- Heated floor area up to 250 m²
- 4 l expansion vessel, tested to 4 bar
- Manifold with safety valve, pressure gauge, filling tap and air vent
- Pipe connections 2 or 4 × R25, centre distance 300 mm
- Dimensions 150 × 150 × 445 mm, wall brackets included
