

The **Sideflow Clean 3.5L** is a partial flow filter designed for continuous cleaning of central heating and cooling installations. By connecting a Sideflow Clean to the system, approximately 10% of the main flow (10% PICV) is filtered. Dirt and magnetite are efficiently captured through a combination of a filter bag and magnetic separation.

Sideflow Clean is available in two sizes: **3.5 liters and 5 liters**.

Key Features:

PÄÄOMINAIISUUDET

- ▶ Side stream filtration for removing magnetic and non-magnetic suspended solids
- ▶ Quick and easy to install and maintainWall-mounted bracket for simple installation
- ▶ Energy-saving insulation layer
- ▶ Can be installed for either right-hand or left-hand operation
- ▶ Suitable for water and glycol/dosing solutions (max. 50% glycol)

TEKNISET TIEDOT

Tuotekoodi	17021	Kvs value	17 m ³ /h
Operating pressure	0,2-10,0 bar	Flow capacity	2,88 m ³ /h
Maximum system size	70 000 l	Number of magnetic rods	1
Flow rate (10 % system flow)	0,8 l/s	Volume	3,5 l
