

TSR WH30 can be used to heat up to 600 m2 area. The lightweight and corrosion-resistant heater is made of powder-coated galvanized steel. In the design of the heaters, the users' wishes have been carefully considered, e.g. they are easy to maintain and standard filters suitable for heaters. The valves are located pointing upwards.

4 wheels, 2 handles and lifting loops make moving the heater easy. The heater has a reliable manual interface.

Robust and sturdy TSR WH heaters are manufactured in Finland and all their components are available as spare parts. A standard size textile hood distributes the air evenly and is included in the delivery.

Water circulating heaters are suitable for various temporary needs e.g. for new construction and renovation sites.

The heater is connected to the district heating network using a heat exchanger.

TEKNISET TIEDOT

Tuotekoodi	1030601030	**Sound level**	65 dB (A)
Voltage	230 V	**Weight**	65,5 kg
Nominal Current	2,2 A	**Dimensions L x W x H**	1000 x 500 x 650 mm
Heating power	30 kW	**Enclosure class**	IP44
Air current	2300 m3/h	**Connectors**	2 x Camlock 25 mm
