

PROFESSIONALLINE POWERBLOCK WITH EXTENSION LEAD 16A (230V) 10M 4-WAY IP54

Brennenstuhl Professional Line IP54 extension cable for outdoor use with four splash-proof sockets with self-closing covers. The extension socket is ergonomic, shockproof, unbreakable and designed to last. The high-quality extension cord is made of rubber and neoprene and is equipped with a standby light, a hinged metal hanging hook and strap, which make it easier to use the product in demanding and difficult conditions.
