

VÖLLER 150W LED WORK LIGHT FOR PAINTERS

Professional lighting solution for painting and coating work

The Völler 150W LED work light is designed specifically for professionals in the painting and coating industry. Its warm white light (3000K) highlights imperfections and surface textures, making it ideal for tasks that require precision and careful finishing.

The light comes with a stable stand that keeps it securely upright during use. A 3-meter power cord with a plug provides flexible placement without the need for an extension cord. The powerful 150-watt light ensures excellent visibility and accuracy on the job site.

Features:

- Power: 150W
- Light color: Warm white 3000K
- Stable stand included
- 3-meter power cord with plug
- Designed for painting and coating tasks
