

The **TSR CableRack 4 – Cable Holder** is a durable and practical solution for storing and organizing power cables on construction sites, shipyards, industrial facilities, and event venues. Designed for power cables up to **63 A**, it securely holds **up to four cables** in a single rack, keeping them off the floor, organized, and easily accessible.

The holder can be mounted on a wall or ceiling using screws or optional magnets (sold separately). Magnetic mounting allows for quick installation and repositioning without drilling, making it an ideal solution for shipyards and steel structures where cable layouts frequently change.

The TSR CableRack 4 is supplied in black as standard. For larger production runs, it is also available in custom brand colours.
