

DEHUMIDIFIER TK40

The TK40 is a powerful dehumidifier that is excellently suited to new construction, renovation work and managing water damage. A wide operating temperature range of 0°–35°C and 30–95 % relative humidity make it a versatile dehumidifier.

A durable, low-maintenance long-life filter and a powder-coated steel frame further extend the service life of the highly wear-resistant TK dehumidifiers. Thanks to a built-in electric auxiliary heater (kW), the room temperature can be raised when needed. TK series dehumidifiers have an easy-to-use hot gas defrost.

Standard equipment includes a hygrostat connection, a collection tank and a running hour meter. A separate hygrostat is available as an accessory. Instead of the collection tank, a drain hose (12 mm connection) can also be used; installation is explained in the user manual.

TECHNICAL ATTRIBUTES

Ilmantuotto	580 m ³ /h	Voltage	230V 50Hz
Kuivauskapasiteetti	40 l/24h	Mitat (L x P x K)	495 x 830 x 610 mm
Energiankulutus	0,78/2,78 kW	Weight	37 kg
		Sound level	50 db(A)
