

DEHUMIDIFIER STARING DYD 25L SEMIPRO WITHOUT PUMP

An efficient and reliable dehumidifier for demanding conditions, for moisture control in the home, a holiday home or a work space. The SemiPro series DYD 25L removes up to 25 litres of moisture per day, which makes it an excellent solution for drying damp spaces after renovations, water damage or construction work.

- **Moisture removal capacity:** 25 L/24h (30 °C, 80 % RH) – efficient in drying
- **Airflow:** 160 m³/h – steady air circulation for efficient drying
- **Tank capacity:** max 5.0 L – easy to empty or connect a hose
- **Continuous operation:** also suitable for demanding environments and around-the-clock use
- **Easy-to-use digital control:** intelligent microprocessor control
- **Automatic defrost:** fast and trouble-free operation even at low temperatures
- **Transport wheels:** easy to move from place to place
- **Noise level:** only 44 dB – a pleasant working environment

TECHNICAL ATTRIBUTES

Air production	25 L/24h (30 °C RH80%)	Weight	13,4 kg
	15 L/24h (27 °C RH60%)	Operating temperature	5 – 35 °C
Air current	160 m ³ /h		

Kuivattavan alueen koko	0-45 m ²	Measurements	360 x 234 x 569 mm
Voltage	220-240V 50 Hz	Sound level	44 dB
Consumption	290 W	Tankin koko	5 L
