

GAARD® FAN 5100M3 / H, 560W

The Gaard blower is a high-performance fan designed for efficient air movement, making it an ideal tool for a variety of demanding applications. With its adjustable angles (0°, 45°, and 90°), this fan can be directed for optimal airflow, ensuring versatile use in drying cement, concrete, or floor surfaces. It is also commonly used as a temporary solution for air recycling or in the drying process of water-damaged areas.

Built with a robust and impact-resistant shell made of durable polyethylene, the Gaard blower offers exceptional durability while remaining lightweight and easy to handle. Perfect for machine rental companies, this blower is engineered for heavy-duty use, providing reliable performance in tough conditions.

Whether you're looking to accelerate drying processes, improve air circulation, or support water damage recovery efforts, the Gaard blower delivers the power and flexibility you need.

SKU: 9600002

TECHNICAL ATTRIBUTES

Power	560 W	The dimensions of the package	420 525 x 490mm
Max. air production	5100 m3/h	Weight	14,5 kg
Voltage	220-240 V 50 Hz	Electricity number	85 056 01
Dimensions (W x H x D)	420 x 480 x 470mm	Warranty (years)	2 years
		EAN	6410085056016
