STP3-750L SUBMERSIBLE PUMP 230 V – HIGH-FLOW SITE PUMP

STP3-750L submersible pump is a 230 volt high-flow model for site use: a 0.75 kilowatt motor moves up to 600 litres per minute to a head of 10.8 metres. The cast body and 10 millimetre particle clearance handle sandy, muddy water.

PÄÄOMINAISUUDET

- Rated voltage 230V 1~, motor output 0.75 kW
- Max. output 600 l/min, head 10.8 m
- 3″ threaded hose connection
- Max. particle size 10 mm, bottom strainer 10 mm
- Cast body, polyurethane impeller, thermal protection
- Weight 20 kg, 10 m rope and 10 m connection cable
